Education

Degree	Institute	Current CGPA	Year
S.T., Teknik Komputer	Institut Teknologi Sepuluh Nopember, Surabaya	3.33/4.0	Sep 2025

Skills

- **Full-Stack Development**: Python, JavaScript, Node.js, Express.js, Flask, API, PostgreSQL, HTML/CSS, flutter, kotlin, Firebase
- **AI & IoT Systems**: PyTorch, LSTM, ESP32, Arduino, C++, C
- **DevOps & Cloud**: Git, Vercel, Apache Kafka
- **Editing**: Adobe Photoshop, Adobe Premiere, Adobe Aftereffect, Capcut, Davinci Resolve
- **Drone Pilot**: DJI Mini 5 Pro, DJI Phantom 3

Work Experiences

- **Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka** Feb 2024 - July 2024
Mobile Development Cohort Surabaya, Indonesia
 - **Capstone Project - EdukaOne: Chatbot to Assist Student in Learning**
 - ◊ Led a team of seven (7) to develop **EdukaOne**, a mobile application designed to help students learn in a structured way and provide learning materials using AI Chatbot.
 - **Mobile Application Development with Kotlin**
 - ◊ Engineered a robust mobile application using Kotlin, reducing API response time to under 200ms through optimized JSON parsing and ensuring 100% data consistency across real-time user sessions.

Individual Projects

- **Yorio PDF : Protatype of PDF Processing Platform** Jan 2026 - Apr 2026
Tools: Node.js, JavaScript, React.js, Vite, Hugging Face Space, Vercel
 - A web-based PDF editor that allows users to upload, edit, and save PDF files easily.
 - Built with Node.js for the backend and React.js for the frontend; due to limited hosting budget, I deployed the backend on Hugging Face Space and the frontend on Vercel to maintain reliable performance at minimal cost.
 - This project is independent and non-profit, and remains 100% free, with the goal of providing an accessible and efficient PDF editing solution. Yorio PDF is available at [Yorio-PDF](#).
- **PitchPlus+: AI-Powered Futsal Match Analysis.** Sep 2024 - Dec 2024
Tools: Python, Express.js, Node.js, CSS, HTML, React.js
 - Developed an AI-powered futsal match analysis system that provides statistics and insights, enhancing player performance and game strategy with over 90% accuracy in player detection using computer vision techniques and LLM(Large Language Models).
 - Implemented a web application using Node.js for backend development and React.js for the frontend, enabling users to upload match videos and receive detailed analyses through a user-friendly interface.
- **SISTEM VISUALISASI REKAM MEDIS BERBASIS DATA ECG PASIEN** May 2025 - July 2025 
Tools: PostgreSQL, Python, Flask, HTML, Flutter, Dart
 - Implemented a comprehensive data visualization system for ECG recordings, enabling healthcare professionals to analyze patient data effectively.
 - Create a system that allows ECG raw data or .SCP type data to be stored on a webpage designed to take over 1000 user at a time without latency and visualized in mobile application using Flutter framework with average data accuracy over 93%.

Campus Organization Experiences

- **MAGE (Multimedia And Game Event) 9**

Feb 2023 - Mar 2024

Logistics Coordinator

Surabaya, Indonesia

- Authorized to organize logistics in running the event, preparing the venue and necessary items for Indonesia's premier technology competition catering to all high school students among Indonesia.

Certifications

- Independent Study Program - Bangkit Academy, [Program-Certificate](#)

Feb 2024 - June 2024

- Android Application Fundamental by Dicoding, [Course](#)

April 2024

- Programming With Kotlin By Dicoding, [Course](#)

Feb 2024
